★★★★★

This is the best energy bar ever. It's so dense and chocolately, it's like eating a brownie, but one that contains healthy ingredients. My spouse, who lives with many dietary restrictions, can finally enjoy a yummy snack. ... Highly recommended!

★★★★★

These bars are absolutely delicious, they have a rich but not overwhelming cocoa flavor which really pops with the fruit ingredients too. No added sugar is a big plus to me ... I have purchased two boxes of Excalibars and so long as the quality ingredients continue to shine, I will continue to buy them.

★★★★★

This is a quality bar with very few (all healthy) ingredients. The flavor is nutty and great and it keeps you full for a long time. Highly recommend this bar for energy, meal replacement or a snack! You won't be disappointed!
